

## **PROJECT APPLICATION FORM:**

### **A. Application Process**

Thank you for your interest in partnering with the Colorado Clean Energy Cluster (CCEC). This form is intended to gather initial information about your proposed project, evaluate its alignment with CCEC goals, and assess our potential role(s) in partnering together. After you've submitted the completed form below, CCEC staff will interview you by phone or in person to clarify and elaborate on your responses. Applications will be evaluated on the extent that the proposed application addresses these criteria:

- Potential to create primary jobs in the region
- Helps to eliminate gap(s) in the clean energy workforce
- Represents ground breaking effort
- Involves an innovative use of a clean energy technology
- Includes a research role for regional educational institutions
- Provides a clear role for CCEC
- Ease of implementation
- Rounds out the portfolio of initiatives supported by CCEC
- Overall strength of application/proposal

Based on the ranking results, the applicant may be given the opportunity to present to the CCEC board of directors at a meeting determined by the Executive Director.

### **B. Project Overview**

**1. Please provide a definition of the project and give background information.**

**2. What will this project accomplish? What is the desired outcome?**

**3. What challenges have you experienced in implementation of your project?**

**FOR MORE INFORMATION:**

**970-491-4281 or [info@coloradocleanenergy.com](mailto:info@coloradocleanenergy.com)  
[www.coloradocleanenergy.com](http://www.coloradocleanenergy.com)**

#### **4. What is your financing strategy?**

#### **5. Implementation Plan for Proposed Project (please include a timeline).**

#### **C. What are your areas of need that CCEC might be able to address?**

- Information/Assistance with economic development incentives and services
- Market and marketing exposure
- Partnership opportunities with regional Utilities
- Partnership opportunities with educational institutions
- Collaboration opportunities with Clean Energy Cluster members
- Assistance with accessing grants and other funding sources
- Access to world class research facilities to build pilot demonstrations
- Event planning for Clean Energy related events
- Other
